

HEALTHY PET FORMULAS

PRODUCT BOOK

FEBRUARY 2025 EDITION

HEALTH IS OUR OBSESSION

At Royal Canin, our mission is to unlock the magnificence in every cat and dog. We know the world of cats and dogs is vastly more diverse than people realize. So we pursue knowledge of every cat's and dog's needs with passion and obsession.

Which is why once we identify a real need through science and observation, we find a nutritional solution.

We partner with pet experts to tailor precise nutritional formulations to the real needs of individual breeds, at different life stages and for different lifestyles.

Only in this way, only with this level of precision, can we help transform every cat and dog into the magnificent animal they have the potential to be.

Royal Canin has developed over 200 specific formulas to meet the individual needs of cats and dogs.

OUR VALUES

- **Focus on Cats and Dogs First** – We work to improve the lives of cats and dogs by pushing the boundaries of innovation to strengthen the link between pet health and nutrition.
- **Passion and Obsession** – We prioritize research and development to formulate innovative nutritional solutions adapted to the specific needs of pets.
- **Precision is Key** – We observe how each nutrient affects cats and dogs of different breeds, sizes, life stages, lifestyles and therapeutic conditions to provide precise nutrition.
- **Science and Observation** – We collaborate and partner with leading veterinary colleges and universities, breeders and other pet experts to better understand pet health and nutrition.

OUR QUALITY AND FOOD SAFETY

- **Company Owned Plants** – We manufacture our diets exclusively in our own plants, allowing for strict quality control.
- **Regular Audits** – We conduct regular audits to ensure food safety, traceability and quality.
- **Certification** – Our protocols have been awarded the ISO 9001:2008 *International Certification for Quality Management and Food Safety*.

BREED

FELINE BREED NUTRITION™

FELINE BREED

FELINE BREED

FELINE BREED NUTRITION™

BREED American Shorthair Adult

For American Shorthair cats over 12 months old

FELINE BREED NUTRITION™

Available in 5.5 lb bags

WEIGHT MANAGEMENT

The American Shorthair is a strongly built cat that is prone to weight gain. This formula contains a balance of fiber and protein with a moderate fat level to help maintain healthy weight. Enriched with L-carnitine, which is important for healthy fat metabolism.

HEALTHY SKIN & COAT

The American Shorthair cat has a short, dense and lustrous coat. Contains a combination of specific nutrients including amino acids, vitamins, omega-3 and omega-6 fatty acids to help maintain healthy skin and a shiny coat.

DIGESTIVE HEALTH

Highly digestible protein (L.I.P.*) and prebiotics promote a balanced intestinal flora for optimal digestive health.

*Protein selected for its very high digestibility.

SPECIAL AMERICAN SHORTHAIK JAW

This specially designed crescent-shaped kibble is adapted in size and texture to make it easier for the American Shorthair's medium-short muzzle to grasp. The unique kibble encourages chewing to help support oral hygiene.

GUARANTEED ANALYSIS

Crude Protein (min)	29.0%
Crude Fat (min)	14.0%
Crude Fat (max)	18.0%
Crude Fiber (max)	6.8%

15	7	3/4	65	7/8	81	1+1/8	97
18	8	3/4	71	1	89	1+1/8	106

1 cup = 8 fluid ounces = 91 grams

This is only a guide. Optimal feeding amounts may vary according to your cat's temperament, activity level and environment. If you have any questions regarding your pet's health, please contact your veterinarian.

BREED Bengal Adult

For Bengal cats over 12 months old

FELINE BREED NUTRITION™

Available in 7 lb bags

GUARANTEED ANALYSIS

Crude Protein (min)	38.0%
Crude Fat (min)	16.0%
Crude Fiber (max)	5.4%
Moisture (max)	8.0%
Methionine-cystine (min)	0.98%
Pantothenic acid (min)	77 mg/kg
Niacin (min)	256 mg/kg
Omega-6 fatty acids* (min)	2.4%
Omega-3 fatty acids* (min)	0.5%

*Not recognized as an essential nutrient by the AAFCO Cat Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3809 kilocalories of metabolizable energy (ME) per kilogram or 404 kilocalories ME per cup on an as fed basis (calculated).

DIGESTIVE HEALTH

The Bengal cat can have a sensitive digestive system. Highly digestible protein (L.I.P.*), an optimal fiber content and prebiotics work to promote a balanced intestinal flora to support healthy digestion.

*Protein selected for its very high digestibility.

ATHLETIC CONDITION

Full of energy, healthy Bengals are well-muscled and have a sleek appearance that depicts their athleticism. An optimal ratio of a high level of protein and fat content helps maintain muscle mass.

HEALTHY GLOSSY COAT

A defining feature is the Bengal distinctive coat with striking patterns and a uniquely silky feel. Specific amino acids, vitamins, omega-3 and omega-6 fatty acids help maintain healthy skin and a shiny coat.

SPECIAL BENGAL JAW

This specially designed Y-shaped kibble, adapted to the Bengal cat's jaw, encourages chewing to help support oral hygiene.

INGREDIENTS

Chicken by-product meal, wheat gluten, wheat, chicken fat, corn gluten meal, corn, natural flavors, brewers rice, dried chicory root, rice hulls, pea fiber, fish oil, vegetable oil, sodium silico aluminate, potassium chloride, sodium pyrophosphate, sodium bisulfate, fructooligosaccharides, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, folic acid, vitamin B12 supplement, vitamin D3 supplement], salt, choline chloride, calcium sulfate, taurine, trace minerals [zinc proteinate, zinc oxide, ferrous sulfate, manganese proteinate, manganous oxide, copper sulfate, calcium iodate, sodium selenite, copper proteinate], marigold extract (*Tagetes erecta* L.), rosemary extract, preserved with mixed tocopherols and citric acid.

RECOMMENDED DAILY FEEDING PORTION

Cat Weight		Low Activity		Medium Activity		High Activity	
lb	kg	cups	grams	cups	grams	cups	grams
6.6	3	1/4	33	3/8	42	1/2	50
8.8	4	3/8	41	1/2	51	5/8	62

13	6	1/2	55	5/8	69	3/4	82
15	7	5/8	61	3/4	76	7/8	92
18	8	5/8	67	3/4	84	7/8	101

1 cup = 8 fluid ounces = 108 grams

This is only a guide. Optimal feeding amounts may vary according to your cat's temperament, activity level and environment. If you have any questions regarding your pet's health, please contact your veterinarian.

BREED Maine Coon Kitten

For Maine Coon kittens up to 15 months old

FELINE BREED NUTRITION™

Available in 3 lb bags

HEALTHY LONG GROWTH PERIOD

Growth for the Maine Coon kitten is exceptionally long, laying down the framework for the breed's unique large stature. Optimal energy and protein content, and precisely balanced vitamins (including vitamin D) and minerals (including calcium and phosphorus), help support healthy bone and joint development.

DIGESTIVE HEALTH

During the growth period, the kitten's digestive system is not yet fully developed and continues developing gradually. Highly digestible protein (L.I.P.*), an optimal fiber content and prebiotics work to promote a balanced intestinal flora to support healthy digestion.

*Protein selected for its very high digestibility.

IMMUNE SYSTEM SUPPORT

During the growth period, the kitten's immune system develops gradually. An exclusive complex of antioxidants (vitamins C and E, lutein, taurine) helps support the kitten's natural defenses.

SPECIAL LARGE JAW

This specially designed cube-shaped kibble is adapted in size and texture for the large jaw of the Maine Coon kitten. The unique kibble encourages chewing to help support oral hygiene.

GUARANTEED ANALYSIS

Crude Protein (min)	34.0%
Crude Fat (min)	21.0%

BREED Maine Coon Adult

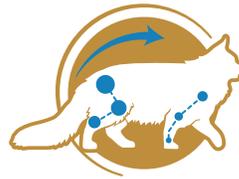

For Maine Coon cats over 15 months old

FELINE BREED NUTRITION™

Available in 6 lb and 14 lb bags

JOINT SUPPORT

The Maine Coon's large size and grand stature can challenge joints throughout her life. Formulated to support healthy bones and joints. Contains EPA and DHA.

CARDIAC HEALTH

Contains nutrients such as taurine, EPA and DHA to help maintain healthy cardiac function.

HEALTHY SKIN & COAT

The Maine Coon cat has a dense semi-longhaired coat with a fine soft undercoat. Includes a combination of specific nutrients including amino acids, vitamins, omega-3 and omega-6 fatty acids to help maintain a healthy skin and coat.

SPECIAL LARGE JAW

This specially designed king size cube-shaped kibble is adapted for the large square jaw of the Maine Coon. The unique kibble encourages chewing to help support oral hygiene.

Ascorbic acid* (min)	176 mg/kg
Lutein* (min)	5.1 mg/kg

*Not recognized as an essential nutrient by the AAFCO Cat Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 4031 kilocalories of metabolizable energy (ME) per kilogram or 427 kilocalories ME per cup on an as fed basis (calculated).

HEALTHY GROWTH & LONG HAIR

During growth, the Persian kitten develops a long, dense and silky coat, the hallmark of the breed. Optimal protein content and precisely balanced vitamins and minerals (including calcium and phosphorus) help support healthy growth while also maintaining healthy skin and a beautiful coat. Enriched with omega-3 and omega-6 fatty acids.

DIGESTIVE HEALTH

During the growth period, the kitten's digestive system is not yet fully developed and continues developing gradually. Highly digestible protein (L.I.P.*), an optimal fiber content (including psyllium) and prebiotics work to promote a balanced intestinal flora to support healthy digestion.

*Protein selected for its very high digestibility.

IMMUNE SYSTEM SUPPORT

During the growth period, the kitten's immune system develops gradually. An exclusive complex of antioxidants (vitamins C and E, lutein, taurine) helps support the kitten's natural defenses.

SPECIAL BRACHYCEPHALIC JAW

This specially designed tiny rectangular kibble with a soft texture is easy for the Persian kitten to pick up and chew.

INGREDIENTS

Chicken by-product meal, brewers rice, chicken fat, corn, wheat gluten, natural flavors, pea fiber, grain distillers dried yeast, dried plain beet pulp, fish oil, vegetable oil, sodium silico aluminate, sodium pyrophosphate, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, folic acid, vitamin B12 supplement, vitamin D3 supplement], potassium chloride, salt, calcium carbonate, fructooligosaccharides, choline chloride, hydrolyzed yeast (source of betaglucans), trace minerals [zinc proteinate, zinc oxide, ferrous sulfate, manganous oxide, manganese proteinate, copper sulfate, calcium iodate, sodium selenite, copper proteinate], DL-methionine, taurine, psyllium seed husk, marigold extract (*Tagetes erecta* L.), L-lysine, magnesium oxide, carotene, rosemary extract, preserved with mixed tocopherols and citric acid.

RECOMMENDED DAILY FEEDING PORTION

12	3/8	40	1/2	49	1/2	58

1 cup of dry = 8 fluid ounces = 106 grams

This is only a guide. Optimal feeding amounts may vary according to your cat's temperament, activity level and environment. If you have any questions regarding your pet's health, please contact your veterinarian.

BREED Persian Adult

For Persian cats over 12 months old

FELINE BREED NUTRITION™

Available in 7 lb bags

LONG HAIR HEALTH

A long, luxurious coat is the hallmark of the Persian cat. An exclusive complex of nutrients helps support the role of the skin as a barrier, and helps maintain skin health and coat beauty. Enriched with omega-3 and omega-6 fatty acids.

HAIRBALL REGULATION

The Persian cat, with her long coat and dense undercoat, routinely swallows a large quantity of hair during grooming. A blend of fibers (including psyllium rich in mucilage) naturally stimulates intestinal transit, helping to eliminate ingested hair and control hairball formation.

DIGESTIVE HEALTH

Highly digestible protein (L.I.P.*), an optimal fiber content and prebiotics work to promote a balanced intestinal flora to support healthy digestion.

*Protein selected for its very high digestibility.

SPECIAL BRACHYCEPHALIC JAW

This specially designed almond-shaped kibble with an optimal contact surface area is easy for the Persian cat to pick up and chew.

GUARANTEED ANALYSIS

*Not recognized as an essential nutrient by the AAFCO Cat Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3775 kilocalories of metabolizable energy (ME) per kilogram or 344 kilocalories ME per cup on an as fed basis (calculated).

LEAN MUSCULAR BODY

The Siamese has an elegant and athletic silhouette. An increased level of protein* and a moderate fat level help preserve a long slender and muscular body. Enriched with L-carnitine which is important for healthy fat metabolism.

*11% more protein than ROYAL CANIN® FIT AND ACTIVE

DIGESTIVE HEALTH

Highly digestible protein (L.I.P.*) and prebiotics promote a balanced intestinal flora for optimal digestive health.

*Protein selected for its very high digestibility.

HEALTHY GLOSSY COAT

The Siamese has a notable very short and sleek coat which lies close to the body. Contains a combination of specific nutrients including amino acids, vitamins, omega-3 and omega-6 fatty acids to help maintain healthy skin and a shiny coat.

SPECIAL SIAMESE JAW

This specially designed tube-shaped kibble is easy for the narrow and long Siamese cat muzzle to grasp. The unique kibble encourages chewing to help reduce the rate of food intake.

INGREDIENTS

Chicken by-product meal, wheat gluten, corn, wheat, brewers rice, chicken fat, corn gluten meal, natural flavors, dried plain beet pulp, fish oil, calcium sulfate, sodium silico aluminate, potassium chloride, sodium pyrophosphate, salt, vegetable oil, fructooligosaccharides, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, folic acid, vitamin B12 supplement, vitamin D3 supplement], choline chloride, L-lysine, hydrolyzed yeast, taurine, calcium carbonate, trace minerals [zinc oxide, zinc proteinate, ferrous sulfate, manganese oxide, manganese proteinate, copper sulfate, calcium iodate, sodium selenite, copper proteinate], marigold extract (*Tagetes erecta* L.), L-carnitine, magnesium oxide, rosemary extract, preserved with mixed tocopherols and citric acid.

PROVEN RESULTS

83% of owners would recommend the ROYAL CANIN® APPETITE CONTROL CARE formulas.*

*Royal Canin internal study.

APPETITE CONTROL

Some cats' appetites are difficult to satisfy. ROYAL CANIN® APPETITE CONTROL CARE dry formula can help reduce the feeling of hunger with a specific blend of fibers to help satisfy the appetite of cats that have a tendency to beg for food between meals.

SUPPORTS HEALTHY WEIGHT

Cats that beg can have a tendency to gain weight. This formula is crafted with moderate fat and precise energy content to help your cat stay fit. Contains L-carnitine, involved with fat metabolism.

SUITABLE FOR SPAYED AND NEUTERED ADULT CATS

INGREDIENTS

Chicken meal, pea fiber, corn, wheat gluten, wheat, corn gluten meal, natural flavors, brewers rice, chicken fat, dried plain beet pulp, vegetable oil, sodium aluminosilicate, sodium pyrophosphate, fish oil, calcium sulfate, choline chloride, potassium chloride, powdered psyllium seed husk, salt, rice flour, fructooligosaccharides, vitamins [DL-alpha tocopherol acetate (source of vitamin E), L-ascorbyl-2-polyphosphate (source of vitamin C), niacin supplement, biotin, riboflavin supplement, D-calcium pantothenate, pyridoxine hydrochloride (vitamin B6), vitamin A acetate, thiamine mononitrate (vitamin B1), vitamin B12 supplement, folic acid, vitamin D3 supplement], taurine, DL-methionine, monosodium phosphate, trace minerals [zinc proteinate, zinc oxide, ferrous sulfate, manganese proteinate, manganous oxide, copper sulfate, sodium selenite, calcium iodate, copper proteinate], L-carnitine, rosemary extract, preserved with mixed tocopherols and citric acid.

Moisture (max)	10.0%

CALORIE CONTENT

This diet contains 3536 kilocalories of metabolizable energy (ME) per kilogram or 311 kilocalories ME per cup on an as fed basis (calculated).

PROVEN RESULTS

The exclusive daily use of DENTAL CARE is effective after 7 days with up to 41%* reduction in the formation of dental plaque.

*Average reduction obtained with DENTAL CARE kibble size, shape and texture compared to the same recipe with a standard kibble size, shape and texture.

TOOTH BRUSHING EFFECT

Complete nutrition that features a kibble formulated with a specific texture that polishes your cat's teeth as they chew. This, combined with chewing, helps limit plaque and tartar build-up during each meal.

BALANCED NUTRITIONAL FORMULA

This diet is a balanced nutritional formula for healthy adult cats that additionally helps support oral health.

INGREDIENTS

Chicken by-product meal, brewers rice, wheat gluten, chicken fat, corn, corn flour, powdered cellulose, natural flavors, wheat, corn gluten meal, dried plain beet pulp, calcium sulfate, fish oil, potassium chloride, salt, vegetable oil, vitamins [vitamin A acetate, vitamin D3 supplement, DL-alpha tocopherol acetate (source of vitamin E), L-ascorbyl-2-polyphosphate (source of vitamin C), niacin supplement, riboflavin supplement, D-calcium pantothenate, thiamine mononitrate (vitamin B1), pyridoxine hydrochloride (vitamin B6), folic acid, biotin, vitamin B12 supplement], fructooligosaccharides, DL-methionine, potassium phosphate, choline chloride, powdered psyllium seed husk, sodium tripolyphosphate, taurine, rosemary extract, preserved with mixed tocopherols and citric acid, trace minerals [zinc sulfate, zinc oxide, manganese proteinate, ferrous sulfate, copper proteinate, calcium iodate, sodium selenite].

RECOMMENDED DAILY FEEDING PORTION

Cat Weight		Low Activity		Medium Activity		High Activity	
lb	kg	cups	grams	cups	grams	cups	grams
6.6	3	3/8	37	1/2	46	5/8	55
8.8	4	1/2	45	5/8	56	3/4	67
11	5	5/8	53	3/4	66	7/8	79
13	6	5/8	60	7/8	75	1	90

1 cup = 8 fluid ounces = 88 grams

This is only a guide. Optimal feeding amounts may vary according to your cat's temperament, activity level and environment. If you have any questions regarding your pet's health, please contact your veterinarian.

FELINE CARE

CARE Digestive Care

For adult cats over 1 year old to help support healthy digestion

FELINE CARE NUTRITION™

Available in 3 lb and 6 lb bags

GUARANTEED ANALYSIS

Crude Protein (min)	36.0%
Crude Fat (min)	13.0%
Crude Fiber (max)	4.8%
Moisture (max)	7.5%

CALORIE CONTENT

This diet contains 3659 kilocalories of metabolizable energy (ME) per kilogram or 333 kilocalories ME per cup on an as fed basis (calculated).

PROVEN RESULTS

Over 95% healthy stool quality in 10 days, when fed with ROYAL CANIN® DIGESTIVE CARE dry formula.*

*Royal Canin internal study.

HEALTHY DIGESTION

This formula is a precisely balanced nutrition that helps support optimal digestive health. It contains highly digestible proteins (L.I.P.*) and a blend of prebiotics and fibers, including psyllium, to promote optimal stool quality.

*L.I.P. protein selected for its very high digestibility.

SUITABLE FOR SPAYED AND NEUTERED ADULT CATS

INGREDIENTS

Brewers rice, chicken by-product meal, wheat gluten, soy protein isolate, chicken fat, corn gluten meal, natural flavors, pea fiber, wheat, corn, dried chicory root, calcium sulfate, fish oil, vegetable oil, sodium aluminosilicate, sodium pyrophosphate, potassium chloride, choline chloride, powdered psyllium seed husk, sodium bisulfate, monocalcium phosphate, rice flour, fructooligosaccharides, salt, hydrolyzed yeast, vitamins [DL-alpha tocopherol acetate (source of vitamin E), L-ascorbyl-2-polyphosphate (source of vitamin C), niacin supplement, biotin, riboflavin supplement, D-calcium pantothenate, pyridoxine hydrochloride (vitamin B6), thiamine mononitrate (vitamin B1), vitamin A acetate, vitamin B12 supplement, vitamin D3 supplement, folic acid], trace minerals [zinc proteinate, zinc oxide, manganese proteinate, ferrous sulfate, manganous oxide, copper sulfate, sodium selenite, calcium iodate, copper proteinate], rosemary extract, preserved with mixed tocopherols and citric acid.

CARE Hairball Care

For adult cats over 1 year old prone to hairballs

FELINE CARE NUTRITION™

Available in 3 lb, 6 lb and 14 lb bags

GUARANTEED ANALYSIS

Crude Protein (min)	32.0%
Crude Fat (min)	13.0%
Crude Fiber (max)	8.5%
Moisture (max)	7.5%

CALORIE CONTENT

This diet contains 3564 kilocalories of metabolizable energy (ME) per kilogram or 342 kilocalories ME per cup on an as fed basis (calculated).

SUPERIOR RESULTS

The exclusive use of HAIRBALL CARE reduces hairball formation.*

*Compared to the same formulation not containing the exclusive HAIRBALL CARE complex.

REDUCES HAIRBALL FORMATION

The exclusive HAIRBALL CARE complex is composed of a specific blend of natural dietary fibers, including psyllium, to help naturally stimulate intestinal transit. As a consequence, hair swallowed daily can be eliminated in the stools, rather than building up in the stomach and being regurgitated.

DIGESTIVE HEALTH

Formulated with highly digestible protein (L.I.P.*) to promote digestive health.

*L.I.P. Protein selected for its very high digestibility.

INGREDIENTS

Chicken by-product meal, corn, pea fiber, brewers rice, corn gluten meal, natural flavors, chicken fat, wheat, wheat gluten, dried plain beet pulp, vegetable oil, calcium sulfate, sodium pyrophosphate, fish oil, powdered psyllium seed husk, rice flour, choline chloride, fructooligosaccharides, potassium chloride, salt, DL-methionine, vitamins [DL-alpha tocopherol acetate (source of vitamin E), L-ascorbyl-2-polyphosphate (source of vitamin C), niacin supplement, biotin, riboflavin supplement, D-calcium pantothenate, pyridoxine hydrochloride (vitamin B6), vitamin A acetate, thiamine mononitrate (vitamin B1), vitamin B12 supplement, folic acid, vitamin D3 supplement], monocalcium phosphate, trace minerals [zinc proteinate, manganese proteinate, zinc oxide, ferrous sulfate, manganous oxide, copper sulfate, sodium selenite, calcium iodate, copper proteinate], taurine, rosemary extract, preserved with mixed tocopherols and citric acid.

RECOMMENDED DAILY FEEDING PORTION

Cat Weight		Low Activity		Medium Activity		High Activity	
lb	kg	cups	grams	cups	grams	cups	grams
8.8	4	1/2	44	5/8	55	3/4	66
11	5	1/2	52	5/8	65	7/8	78
13	6	5/8	59	3/4	74	7/8	89

1 cup = 8 fluid ounces = 96 grams

This is only a guide. Optimal feeding amounts may vary according to your cat's temperament, activity level and environment. If you have any questions regarding your pet's health, please contact your veterinarian.

CARE Hairball Care

THIN SLICES IN GRAVY

For adult cats over 1 year old prone to hairballs

FELINE CARE NUTRITION™

Available in 3 oz cans

Thin Slices in Gravy

MANAGES HAIRBALLS

Formulated to help naturally stimulate intestinal transit to encourage the elimination of ingested hair.

DIGESTIVE HEALTH

Formulated with highly digestible protein (L.I.P.*) to promote digestive health.

*L.I.P. Protein selected for its very high digestibility.

WEIGHT MAINTENANCE

Helps maintain ideal weight.

INGREDIENTS

Water sufficient for processing, chicken by-products, pork by-products, chicken liver, pork liver, corn flour, powdered cellulose, modified corn starch, pork plasma, natural flavors, carob bean gum, sodium tripolyphosphate, tricalcium phosphate, calcium carbonate, potassium chloride, hydrolyzed yeast, sodium aluminosilicate, DL-methionine, taurine, vitamins [DL-alpha tocopherol acetate (source of vitamin E), thiamine mononitrate (vitamin B1), niacin supplement, biotin, D-calcium pantothenate, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, folic acid, vitamin B12 supplement, vitamin D3 supplement], cysteine, glycine, sodium carbonate, calcium sulfate, psyllium seed husk, trace minerals [zinc oxide, zinc proteinate, ferrous sulfate, copper sulfate, manganous oxide, calcium iodate, sodium selenite].

GUARANTEED ANALYSIS

FELINE CARE

CARE Urinary Care

For healthy adult cats over 1 year old to help maintain urinary tract health

FELINE CARE NUTRITION™

Available in 3 lb, 6 lb and 14 lb bags

GUARANTEED ANALYSIS

Crude Protein (min)	31.0%
Crude Fat (min)	11.0%
Crude Fiber (max)	6.5%
Moisture (max)	8.0%
Magnesium (max)	0.13%

CALORIE CONTENT

This diet contains 3520 kilocalories of metabolizable energy (ME) per kilogram or 317 kilocalories ME per cup on an as fed basis (calculated).

PROVEN RESULTS

Efficiently promotes urinary health in only 10 days, by promoting a healthy mineral content in the urine.*

*Royal Canin internal study, 2018.

URINARY CARE supports the urinary tract health with a precisely balanced nutritional formula. The diet helps to maintain a healthy urine concentration by regulating the mineral balance.

Daily water intake has an impact on urine volume and dilution of solutes. Your cat's water intake should be monitored and encouraged to help support a healthy urinary tract.

INGREDIENTS

Corn, wheat gluten, chicken meal, brewers rice, corn gluten meal, wheat, chicken fat, natural flavors, rice hulls, pea fiber, dried plain beet pulp, calcium sulfate, egg product, vegetable oil, fish oil, sodium bisulfate, potassium chloride, salt, sodium pyrophosphate, DL-methionine, choline chloride, taurine, vitamins [DL-alpha tocopherol acetate (source of vitamin E), L-ascorbyl-2-polyphosphate (source of vitamin C), niacin supplement, biotin, riboflavin supplement, D-calcium pantothenate, pyridoxine hydrochloride (vitamin B6), vitamin A acetate, thiamine mononitrate (vitamin B1), vitamin B12 supplement, folic acid, vitamin D3 supplement], trace minerals [zinc proteinate, zinc oxide, ferrous sulfate, manganese proteinate, manganous oxide, copper sulfate, calcium iodate, copper proteinate, sodium selenite], marigold extract (*Tagetes erecta* L.), rosemary extract, preserved with mixed tocopherols and citric acid.

*Not recognized as an essential nutrient by the AAFCO Cat Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3260 kilocalories of metabolizable energy (ME) per kilogram or 280 kilocalories ME per cup on an as fed basis (calculated).

STRONG IMMUNE SYSTEM

Supports the development of the kitten's healthy immune system with the inclusion of clinically proven antioxidants, including vitamins E and C.

GROWTH & WEIGHT CONTROL

After spaying or neutering, a kitten's energy needs change and the risk of becoming overweight increases. This formula contains a moderate level of fat to help limit weight gain and precise protein, calcium and phosphorus levels to allow for a healthy growth.

MICROBIOME SUPPORT

Combination of prebiotics & highly digestible proteins to help promote a healthy balance of intestinal bacteria for digestive health.

INGREDIENTS

Chicken by-product meal, brewers rice, corn, wheat gluten, powdered cellulose, pea fiber, natural flavors, chicken fat, dried plain beet pulp, vegetable oil, corn gluten meal, sodium aluminosilicate, sodium pyrophosphate, potassium chloride, powdered psyllium seed husk, taurine, rice flour, salt, calcium carbonate, fish oil, fructooligosaccharides, choline chloride, hydrolyzed yeast, marine microalgae oil, vitamins [DL-alpha tocopherol acetate (source of vitamin E), L-ascorbyl-2-polyphosphate (source of vitamin C), niacin supplement, biotin, riboflavin supplement, D-calcium pantothenate, pyridoxine hydrochloride (vitamin B6), vitamin A acetate, thiamine mononitrate (vitamin B1), vitamin B12 supplement, folic acid, vitamin D3 supplement], DL-methionine, trace minerals [zinc proteinate, manganese proteinate, zinc oxide, ferrous sulfate, manganous oxide, copper sulfate, sodium selenite, calcium iodate, copper proteinate], marigold extract (*Tagetes erecta* L.), carotene, rosemary extract, preserved with mixed tocopherols and citric acid.

For indoor cats from 1 to 7 years old

FELINE HEALTH NUTRITION™

Available in 3 lb, 7 lb and 15 lb bags

STOOL ODOR REDUCTION

A lack of exercise may lead to a slower intestinal transit which can result in smelly stools. INDOOR ADULT is formulated with highly digestible protein (L.I.P.*), an appropriate fiber content and specific nutrients to promote good digestion and help reduce the quantity and odor of stools.

*Protein selected for its very high digestibility.

MODERATE CALORIE

A moderate fat content adapted to the lower activity of indoor cats to help maintain healthy weight.

MANAGES HAIRBALLS

A combination of different types of fibers that encourages intestinal transit and helps facilitate the elimination of the hair your cat swallows every day.

GUARANTEED ANALYSIS

1 cup of dry = 8 fluid ounces = 91 grams

1 can of wet = 85 grams

This is only a guide. Optimal feeding amounts may vary according to your cat's temperament, activity level and environment. If you have any questions regarding your pet's health, please contact your veterinarian.

HEALTH Sensitive Digestion

For adult cats over 1 year old with sensitive digestive systems

FELINE HEALTH NUTRITION™

Available in 3.5 lb, 7 lb and 15 lb bags

OPTIMAL DIGESTION

Some cats have digestive sensitivity leading to soft stools. SENSITIVE DIGESTION contains an exclusive combination of nutrients to support optimal digestive health (L.I.P.*) and prebiotics for a balanced intestinal flora.

*Protein selected for its very high digestibility.

HIGH PALATABILITY

Three different kibble shapes and an attractive formula with carefully selected flavors to stimulate food intake in sensitive cats.

CONCENTRATED ENERGY

A higher energy density leads to smaller meal sizes and decreases digestive workload in cats with digestive sensitivity.

GUARANTEED ANALYSIS

Crude Protein (min)	33.0%
Crude Fat (min)	20.0%
Crude Fiber (max)	3.1%
Moisture (max)	7.5%

CALORIE CONTENT

This diet contains 4079 kilocalories of metabolizable energy (ME) per kilogram or 469 kilocalories ME per cup on an as fed basis (calculated).

INGREDIENTS

Chicken by-product meal, chicken fat, corn gluten meal, brewers rice, wheat, natural flavors, wheat gluten, corn, dried plain beet pulp, calcium sulfate, sodium pyrophosphate, fish oil, vegetable oil, potassium chloride, choline chloride, sodium bisulfate, sodium aluminosilicate, fructooligosaccharides, vitamins [DL-alpha tocopherol acetate (source of vitamin E), L-ascorbyl-2-polyphosphate (source of vitamin C), niacin supplement, biotin, riboflavin supplement, D-calcium pantothenate, pyridoxine hydrochloride (vitamin B6), thiamine mononitrate (vitamin B1), vitamin A acetate, vitamin B12 supplement, vitamin D3 supplement, folic acid], taurine, salt, trace minerals [zinc oxide, ferrous sulfate, manganous oxide, copper sulfate, sodium selenite, calcium iodate], rosemary extract, preserved with mixed tocopherols and citric acid.

RECOMMENDED DAILY FEEDING PORTION

Cat Weight		Low Activity		Medium Activity		High Activity	
lb	kg	cups	grams	cups	grams	cups	grams

For indoor cats over 7 years old

FELINE HEALTH NUTRITION™

Available in 2.5 lb and 5.5 lb bags

VITALITY COMPLEX

To help cats face the first signs of aging and maintain vitality after 7 years of age, INDOOR 7+ is formulated with a precise balance of vitamins and minerals. This formula is enriched with specific nutrients including vitamin C, EPA and DHA.

STOOL ODOR REDUCTION

A lack of exercise may lead to a slower intestinal transit and smelly stools. INDOOR 7+ contains highly digestible protein (L.I.P.*) and helps reduce the quantity and odor of stools.

*Protein selected for its very high digestibility.

RENAL HEALTH

A decline in kidney function is common after 7 years of age. INDOOR 7+ contains an adapted phosphorus level to help support renal health.

GUARANTEED ANALYSIS

Crude Protein (min)	27.0%
Crude Fat (min)	11.0%

HEALTH Aging Spayed/Neutered 12+

For spayed or neutered cats over 12 years old

FELINE HEALTH NUTRITION™

Available in 7 lb bags

WEIGHT MAINTENANCE

In some senior cats, the level of activity reduces with age, which leads to weight gain. AGING SPAYED/NEUTERED 12+ contains a moderate level of fat to help maintain an ideal body condition.

HEALTHY AGING COMPLEX

An exclusive complex of antioxidants including lycopene and omega-3 fatty acids to support the body systems through the aging process.

RENAL HEALTH

Helps support healthy renal function with a moderate phosphorus level.

ENRICHED WITH L-CARNITINE

L-carnitine is involved in healthy fat metabolism.

For picky cats over 1 year old that prefer a formula based on its texture

FELINE HEALTH NUTRITION™

Available in 6 lb bags

DUAL SAVOR SENSATION

Some fussy cats are most attracted by diversity while eating. SAVOR SELECTIVE contains two synergistic kibbles, each a different formula and texture, to stimulate the natural preference of these cats.

OPTIMAL WEIGHT

This formulation, with an adapted energy content, helps maintain the fussy cat's ideal weight.

INDIVIDUAL PREFERENCE

Each cat has a natural preference when selecting food: aromatic profile, savor diversity or protein level. Royal Canin has developed different formulas to satisfy even the fussiest cats.

GUARANTEED ANALYSIS

Crude Protein (min)	31.0%
Crude Fat (min)	14.0%
Crude Fiber (max)	5.2%
Moisture (max)	8.0%

CALORIE CONTENT

This diet contains 3723 kilocalories of metabolizable energy (ME) per kilogram or 339 kilocalories ME per cup on an as fed basis (calculated).

INGREDIENTS

Corn, brewers rice, chicken meal, chicken fat, wheat gluten, soy protein isolate, natural flavors, corn gluten meal, rice hulls, dried plain beet pulp, calcium sulfate, grain distillers dried yeast, vegetable oil, potassium chloride, sodium silico aluminate, sodium bisulfate, sodium pyrophosphate, fructooligosaccharides, choline chloride, vitamins [DL-alpha tocopherol acetate (source of vitamin E), L-ascorbyl-2-polyphosphate (source of vitamin C), niacin supplement, biotin, riboflavin supplement, D-calcium pantothenate, thiamine mononitrate (vitamin B1), pyridoxine hydrochloride (vitamin B6), vitamin A acetate, vitamin B12 supplement, folic acid, vitamin D3 supplement], monocalcium phosphate, taurine, DL-methionine, trace minerals [zinc oxide, ferrous sulfate, manganous oxide, copper sulfate, calcium iodate, sodium selenite], rosemary extract, preserved with mixed tocopherols and citric acid.

BREED HEALTH NUTRITION®

BREED Beagle Adult

For Beagles over 12 months old

BREED HEALTH NUTRITION®

Available in 6 lb and 30 lb bags

IDEAL WEIGHT

Beagles are cheerful dogs, bred originally for tracking hares by scent. They are even-tempered, intelligent and determined. All these qualities make the Beagle an excellent companion. They are also known for being voracious eaters, therefore having a tendency to put on weight. This formula helps maintain the adult Beagle's ideal weight with an appropriate calorie content.

FOOD INTAKE CONTROL

The exclusive kibble shape helps slow down the rate of food intake by encouraging chewing. This formula also contains an exclusive blend of fibers to help the Beagle feel full after mealtime.

BONE & JOINT SUPPORT

Beagles are little athletes with stamina and energy to spare. His sturdy and compact body combined with his natural tendency to put on weight are among the factors that can put stress on his joints. The BEAGLE ADULT formula includes glucosamine and chondroitin to help support healthy bones and joints. Enriched with EPA and DHA.

GUARANTEED ANALYSIS

Crude Protein (min)	25.0%
Crude Fat (min)	10.0%

BREED Bulldog Adult

For Bulldogs over 12 months old

BREED HEALTH NUTRITION®

Available in 17 lb and 30 lb bags

ODOR REDUCTION

This formula helps to reduce intestinal fermentation which can cause digestive disorders, flatulence and unpleasant stool odor. BULLDOG ADULT supports good digestion with highly digestible proteins (L.I.P.*), an appropriate fiber content and high quality carbohydrate sources.

*Protein selected for its very high digestibility.

HEALTHY SKIN

Diet plays an important part in maintaining healthy skin which is a critical component to the Bulldog's overall well-being. The BULLDOG ADULT formula helps support the skin's role as a barrier with an exclusive complex of nutrients and helps maintain skin health (EPA and DHA).

BONE & JOINT HEALTH

The Bulldog's heavy structure can put stress on their joints. The BULLDOG ADULT formula helps support healthy bones and joints, and helps maintain ideal weight. Enriched with EPA and DHA.

CALORIE CONTENT

This diet contains 3756 kilocalories of metabolizable energy (ME) per kilogram or 368 kilocalories ME per cup on an as fed basis (calculated).

IMMUNE SYSTEM SUPPORT

As puppies grow, they will experience big changes and new discoveries. During this key period, the puppy's immune system develops gradually. CAVALIER KING CHARLES PUPPY helps support your puppy's natural defenses with an exclusive complex of antioxidants including vitamin E.

CARDIAC TONE

CAVALIER KING CHARLES PUPPY contains the nutrients necessary to help support optimal cardiac health with EPA & DHA, taurine, L-carnitine, antioxidants and a precisely balanced mineral content.

DIGESTIVE HEALTH

Formulated with high quality protein (L.I.P.*) and prebiotics to support digestive health and a balanced intestinal flora, contributing to optimal stool quality.

*Protein selected for its very high digestibility.

EXCLUSIVE KIBBLE

The Cavalier King Charles Spaniel has a slightly tapered muzzle with teeth that meet in a scissors bite. The size, shape and texture of the kibble is designed to be easy for Cavalier King Charles Spaniels to pick up and chew.

INGREDIENTS

Chicken by-product meal, brewers rice, corn, chicken fat, wheat gluten, dried plain beet pulp, natural flavors, corn protein meal, fish oil, monocalcium phosphate, pea fiber, vegetable oil, sodium aluminosilicate, calcium carbonate, potassium chloride, vitamins [DL-alpha tocopherol acetate (source of vitamin E), L-ascorbyl-2-polyphosphate (source of vitamin C), niacin supplement, D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, vitamin B12 supplement, folic acid, vitamin D3 supplement], fructooligosaccharides, sodium triphosphosphate, yeast extract, salt, DL-methionine, L-lysine, choline chloride, rosemary extract, preserved with mixed tocopherols and citric acid, L-tyrosine, magnesium oxide, taurine, L-carnitine, trace minerals [zinc proteinate, zinc oxide, manganese proteinate, ferrous sulfate, manganous oxide, copper sulfate, sodium selenite, calcium iodate, copper proteinate], marigold extract (*Tagetes erecta* L.), L-threonine, *Yucca schidigera* extract, carotene.

BREED HEALTH NUTRITION®

Available in 2.5 lb bags

GUARANTEED ANALYSIS

Crude Protein (min)	28.0%
Crude Fat (min)	18.0%
Crude Fiber (max)	4.0%
Moisture (max)	10.0%
Vitamin E (min)	420 IU/kg

CALORIE CONTENT

This diet contains 3846 kilocalories of metabolizable energy (ME) per kilogram or 350 kilocalories ME per cup on an as fed basis (calculated).

IMMUNE SYSTEM SUPPORT

As puppies grow, they will experience big changes and new discoveries. During this key period, the puppy's immune system develops gradually. CHIHUAHUA PUPPY support your puppy's natural defenses with an exclusive complex of antioxidants including vitamin E.

HIGH PALATABILITY

The Chihuahua is known for their fussy appetites, and therefore a highly palatable food is recommended. CHIHUAHUA PUPPY satisfies the Chihuahua puppy's finicky appetite with a combination of three factors: a careful selection of exceptional aromas and flavors along with a customized kibble size and shape.

STOOL AND ODOR REDUCTION

CHIHUAHUA PUPPY helps reduce fecal smell and volume, and it helps support optimal digestion with highly digestible proteins (L.I.P.*) and an appropriate fiber content.

*Protein selected for its very high digestibility.

EXCLUSIVE KIBBLE: SPECIAL MINIATURE JAW

This exclusive small-sized kibble has been developed to be adapted to the miniature jaw of the Chihuahua puppy.

INGREDIENTS

Chicken by-product meal, brewers rice, chicken fat, corn, wheat gluten, dried plain beet pulp, oat groats, natural flavors, fish oil, vegetable oil, sodium silico aluminate, pea fiber, potassium chloride, monocalcium phosphate, calcium carbonate, fructooligosaccharides, sodium tripolyphosphate, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, folic acid, vitamin B12 supplement, vitamin D3 supplement], hydrolyzed yeast (source of betaglucons), salt, choline chloride, DL-methionine, taurine, marigold extract (*Tagetes erecta* L.), trace minerals [zinc proteinate, zinc oxide, manganese proteinate, ferrous sulfate, manganous oxide, copper sulfate, calcium iodate, sodium selenite, copper proteinate], L-lysine, *Yucca schidigera* extract, L-carnitine, carotene, rosemary extract, preserved with mixed tocopherols and citric acid.

BREED Chihuahua Adult 8+

For Chihuahuas over 8 years old

BREED HEALTH NUTRITION®

Available in 2.5 lb bags

HEALTHY AGING COMPLEX

CHIHUAHUA ADULT 8+ includes a complex of nutrients to support aging Chihuahuas. It contains an exclusive combination of antioxidants to help maintain cellular health and is formulated with an appropriate phosphorus content for senior dogs.

CARDIAC HEALTH

Although important throughout the Chihuahua's life, cardiac health becomes more important as the dog ages. CHIHUAHUA ADULT 8+ contains a blend of nutrients, including taurine and EPA and DHA to help maintain cardiac health in mature Chihuahuas.

STOOL & ODOR REDUCTION

This formula helps reduce fecal smell and volume by increasing digestibility. CHIHUAHUA ADULT 8+ contains highly digestible proteins (L.I.P.*), an appropriate fiber content and very high quality carbohydrate sources for maintaining healthy intestines and healthy stools.

*Protein selected for its very high digestibility.

Vitamin E (min)	420 IU/kg
Glucosamine* (min)	371 mg/kg
Chondroitin sulfate* (min)	4 mg/kg

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3649 kilocalories of metabolizable energy (ME) per kilogram or 369 kilocalories ME per cup on an as fed basis (calculated).

IMMUNE SYSTEM SUPPORT

As puppies grow, they will experience big changes and new discoveries. During this key period, the puppy's immune system develops gradually. DACHSHUND PUPPY helps support your puppy's natural defenses with an exclusive complex of antioxidants including vitamin E.

JOINT & BONE SUPPORT

Balanced energy intake and precise mineral content (calcium and phosphorus) contribute to the development of strong bones and healthy joints in Dachshund puppies. This exclusive diet also helps maintain ideal weight.

DIGESTIVE HEALTH

Formulated with high quality protein (L.I.P.*) and prebiotics to support digestive health and a balanced intestinal flora, contributing to optimal stool quality.

*Protein selected for its very high digestibility.

EXCLUSIVE KIBBLE

This exclusive kibble has been developed to be perfectly adapted to the jaw of the Dachshund puppy, making it easy to pick up and chew.

INGREDIENTS

Chicken by-product meal, brown rice, brewers rice, corn, wheat gluten, chicken fat, dried plain beet pulp, natural flavors, vegetable oil, fish oil, sodium silico aluminate, potassium chloride, calcium carbonate, monocalcium phosphate, fructooligosaccharides, sodium tripolyphosphate, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, folic acid, vitamin B12 supplement, vitamin D3 supplement], hydrolyzed yeast (source of betaglucons), salt, choline chloride, marigold extract (*Tagetes erecta* L.), DL-methionine, L-lysine, trace minerals [zinc proteinate, zinc oxide, manganese proteinate, ferrous sulfate, manganous oxide, copper sulfate, calcium iodate, sodium selenite, copper proteinate], taurine, glucosamine hydrochloride, *Yucca schidigera* extract, L-carnitine, chondroitin sulfate, carotene, rosemary extract, preserved with mixed tocopherols and citric acid.

CANINE BREED

BREED Dachshund Adult

For Dachshunds 10 months to 8 years old

BREED HEALTH NUTRITION®

Available in 2.5 lb and 10 lb bags

GUARANTEED ANALYSIS

Crude Protein (min)	26.0%
Crude Fat (min)	12.0%
Crude Fiber (max)	4.4%
Moisture (max)	10.0%
Calcium (min)	0.6%
Phosphorus (min)	0.4%
L-carnitine* (min)	70 mg/kg
Glucosamine* (min)	520 mg/kg
Chondroitin sulfate* (min)	5 mg/kg

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3574 kilocalories of metabolizable energy (ME) per kilogram or 293 kilocalories ME per cup on an as fed basis (calculated).

JOINT & BONE SUPPORT

Dachshunds have short limbs and vertebrae which are subjected to severe mechanical stresses. DACHSHUND ADULT helps support the Dachshund's healthy bones and joints with an appropriate calcium and phosphorus content. This exclusive formula also helps maintain ideal weight.

MUSCLE TONE

This formula helps maintain the Dachshund's muscle tone with an appropriate protein content. Contains L-carnitine.

STOOL & ODOR REDUCTION

This formula helps reduce fecal smell and volume, and it helps support good digestion with highly digestible proteins (L.I.P.*), an appropriate fiber content and high quality carbohydrate sources.

*Protein selected for its very high digestibility.

EXCLUSIVE KIBBLE

This exclusive kibble has been developed to be perfectly adapted to the small jaw of the Dachshund. It makes it easy for the Dachshund to pick up and chew.

INGREDIENTS

Chicken by-product meal, brewers rice, brown rice, oat groats, wheat gluten, chicken fat, natural flavors, dried plain beet pulp, fish oil, powdered cellulose, salt, vegetable oil, sodium silico aluminate, potassium chloride, calcium carbonate, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, folic acid, vitamin B12 supplement, vitamin D3 supplement], fructooligosaccharides, sodium tripolyphosphate, L-lysine, choline chloride, DL-methionine, marigold extract (*Tagetes erecta* L.), trace minerals [zinc proteinate, zinc oxide, ferrous sulfate, manganese proteinate, manganous oxide, copper sulfate, calcium iodate, sodium selenite, copper proteinate], glucosamine hydrochloride, GLA safflower oil, taurine, magnesium oxide, green tea extract, L-carnitine, chondroitin sulfate, rosemary extract, preserved with mixed tocopherols and citric acid.

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 925 kilocalories of metabolizable energy (ME) per kilogram or 79 kilocalories ME per can on an as fed basis (calculated).

JOINT & BONE SUPPORT

Contains glucosamine, chondroitin and EPA/DHA to support the Dachshund's bone and joint health.

MUSCLE TONE

Formulated with high protein and L-carnitine to help maintain muscle tone.

APPETITE STIMULATION

Stimulates a Dachshund's finicky appetite with a highly palatable formula that is moderately high in fat and energy density.

INGREDIENTS

Water sufficient for processing, pork by-products, chicken by-products, chicken, pork liver, chicken liver, corn flour, powdered cellulose, vegetable oil, fish oil, carrageenan, sodium tripolyphosphate, natural flavors, carob bean gum, potassium chloride, calcium carbonate, taurine, guar gum, vitamins [L-ascorbyl-2-polyphosphate (source of vitamin C), DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, D-calcium pantothenate, biotin, thiamine mononitrate (vitamin B1), pyridoxine hydrochloride (vitamin B6), riboflavin supplement, vitamin B12 supplement, vitamin A acetate, folic acid, vitamin D3 supplement], glucosamine hydrochloride, sodium carbonate, magnesium oxide, L-carnitine, trace minerals [zinc proteinate, zinc oxide, ferrous sulfate, manganese proteinate, copper sulfate, manganous oxide, sodium selenite, calcium iodate, copper proteinate], marigold extract (*Tagetes erecta* L.), chondroitin sulfate.

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3616 kilocalories of metabolizable energy (ME) per kilogram or 340 kilocalories ME per cup on an as fed basis (calculated).

HEALTHY AGING COMPLEX

DACHSHUND ADULT 8+ is formulated with a precise phosphorus content and a complex of antioxidants to help maintain optimal health in the maturing Dachshund.

BONE & JOINT SUPPORT

The Dachshund has short limbs and vertebrae, and therefore they tend to have more mechanical joint stress compared to other breeds. DACHSHUND ADULT 8+ supports the Dachshund's bones and joints with EPA & DHA and precise levels of calcium and phosphorus.

IDEAL WEIGHT

Excess weight gain can affect the health of the Dachshund, so an appropriately balanced diet is necessary to maintain optimal health. DACHSHUND ADULT 8+ has adjusted nutrients and calories compared to DACHSHUND ADULT to help maintain the ideal weight of the maturing Dachshund.

EXCLUSIVE KIBBLE: HIGHLY PALATABLE + REHYDRATABLE

The kibble size, shape and texture are designed for the mature Dachshund and his small jaw. Kibble may be softened with warm water to allow for easier eating.

INGREDIENTS

Brewers rice, corn, chicken by-product meal, wheat gluten, chicken fat, corn gluten meal, natural flavors, dried plain beet pulp, fish oil, salt, vegetable oil, rice hulls, dried tomato pomace, potassium chloride, calcium carbonate, psyllium seed husk, sodium silico aluminate, fructooligosaccharides, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, folic acid, vitamin B12 supplement, vitamin D3 supplement], sodium tripolyphosphate, choline chloride, hydrolyzed yeast, L-lysine, glucosamine hydrochloride, trace minerals [zinc oxide, ferrous sulfate, zinc proteinate, manganous oxide, manganese proteinate, copper sulfate, calcium iodate, sodium selenite, copper proteinate], marigold extract (*Tagetes erecta* L.), taurine, magnesium oxide, green tea extract, L-carnitine, chondroitin sulfate, carotene, rosemary extract, preserved with mixed tocopherols and citric acid.

1 cup = 8 fluid ounces = 94 grams

This is only a guide. Optimal feeding amounts may vary according to your dog's temperament, activity level and environment. If you have any questions regarding your pet's health, please contact your veterinarian.

BREED Dalmatian Adult

For Dalmatians over 15 months old

BREED HEALTH NUTRITION®

Available in 30 lb bags

PRECISE PROTEIN SOURCES

The DALMATIAN ADULT formula has been specially formulated with a low purine content and carefully selected protein sources.

HEALTHY SKIN

Nutrition plays an important part in maintaining the quality of the skin. The DALMATIAN ADULT formula helps support the skin's role as a barrier with an exclusive complex of B vitamins and amino acids and helps maintain skin health with EPA & DHA.

CARDIAC HEALTH

DALMATIAN ADULT contains specific nutrients, including taurine, EPA & DHA, to help support optimal cardiac health.

EXCLUSIVE KIBBLE DESIGN

The Dalmatian has a powerful muzzle with teeth that meet in a scissors bite. The size, shape and texture of the kibble is designed to be easy for Dalmatians to pick up and chew.

BREED French Bulldog Adult

For French Bulldogs over 12 months old

BREED HEALTH NUTRITION®

Available in 6 lb and 17 lb bags

MUSCLE MASS SUPPORT

French Bulldogs are known to have powerful muscles. FRENCH BULLDOG ADULT helps maintain muscle mass with an appropriate protein content (24% min). Enriched with L-carnitine.

HEALTHY SKIN

The skin reflects the dog's state of health, and nutrition plays a key role in its maintenance. The FRENCH BULLDOG ADULT formula helps support the skin's role as a barrier with an exclusive complex of nutrients and helps maintain skin health (EPA and DHA).

ODOR REDUCTION

This formula helps to reduce intestinal fermentation which can cause digestive disorders, flatulence and bad stool odor. FRENCH BULLDOG ADULT helps support healthy digestion with highly digestible proteins (L.I.P.*), an appropriate fiber content and high quality carbohydrate sources.

*Protein selected for its very high digestibility.

GUARANTEED ANALYSIS

Crude Protein (min)	24.0%
Crude Fat (min)	16.0%

BREED German Shepherd Adult

For German Shepherds 15 months to 5 years old

BREED HEALTH NUTRITION®

Available in 17 lb and 30 lb bags

DIGESTIVE PERFORMANCE

A longer colonic transit time combined with large breed dogs' higher colonic permeability can lead to more fermentation and poor stool quality. GERMAN SHEPHERD ADULT contributes to supporting this breed's sensitive digestive system with highly digestible L.I.P.* proteins and a selection of specific fibers to limit intestinal fermentation and to help maintain a balanced intestinal flora.

*Protein selected for its very high digestibility.

HEALTHY SKIN & COAT

The skin and coat reflect the dog's state of health, and appropriate nutrition plays an important part in maintaining their quality. The GERMAN SHEPHERD ADULT formula helps support the skin's role as a barrier with an exclusive complex of nutrients and helps maintain skin and coat health (EPA and DHA).

BONE & JOINT HEALTH

The lively temperament of the German Shepherd leads to hard working joints. The GERMAN SHEPHERD ADULT formula helps support healthy bones and joints and helps maintain ideal weight. Enriched with EPA and DHA.

GUARANTEED ANALYSIS

Crude Protein (min)	22.0%

BREED German Shepherd Adult 5+

For German Shepherds over 5 years old

BREED HEALTH NUTRITION®

Available in 28 lb bags

HEALTHY AGING COMPLEX

GERMAN SHEPHERD ADULT 5+ is developed to support healthy aging. Contains an exclusive combination of antioxidants to help maintain cellular health and is formulated with an appropriate phosphorus content to help care for the kidney health of German Shepherds as they mature.

JOINT FUNCTION SUPPORT

Formulated to provide advanced nutrients, including collagen, EPA & DHA, to help support cartilage during the aging process, helping to maintain healthy bones and joints.

DIGESTIVE HEALTH

This precisely balanced nutritional formula helps support the German Shepherd's sensitive digestive system. It contains highly digestible (L.I.P.*) proteins and a selection of specific fibers, including prebiotics to promote a balanced intestinal flora, maintain a healthy digestive system and help promote optimal stool quality.

*Protein selected for its very high digestibility.

Taurine* (min)	0.20%
Glucosamine* (min)	891 mg/kg
Chondroitin sulfate* (min)	9 mg/kg

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3489 kilocalories of metabolizable energy (ME) per kilogram or 276 kilocalories ME per cup on an as fed basis (calculated).

HEALTHY SKIN & COAT

The skin and coat reflect the dog's state of health. An appropriate food is important in maintaining healthy skin and coat. The GOLDEN RETRIEVER ADULT formula helps support the skin's role as a barrier with an exclusive complex of nutrients and helps maintain skin and coat health (EPA and DHA).

HEALTHY CARDIAC FUNCTION

Golden Retrievers can be prone to cardiac sensitivity. The GOLDEN RETRIEVER ADULT formula contains specific nutrients to help support healthy cardiac function: taurine, EPA and DHA.

IDEAL WEIGHT

Excess weight gain can affect the health of Golden Retrievers, and therefore an appropriately balanced food is necessary for their well-being. GOLDEN RETRIEVER ADULT helps maintain the breed's ideal weight with an appropriate calorie and fat content.

EXCLUSIVE KIBBLE

The Golden Retriever has a straight muzzle and teeth that meet in a scissors bite. The kibble size, shape and texture of the GOLDEN RETRIEVER ADULT formula is designed specifically for this breed and encourages him to chew.

INGREDIENTS

Brown rice, chicken by-product meal, oat groats, brewers rice, wheat, corn gluten meal, chicken fat, natural flavors, powdered cellulose, dried plain beet pulp, wheat gluten, fish oil, dried tomato pomace, vegetable oil, sodium silico aluminate, calcium carbonate, potassium chloride, psyllium seed husk, salt, fructooligosaccharides, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, folic acid, vitamin B12 supplement, vitamin D3 supplement], sodium tripolyphosphate, L-lysine, taurine, choline chloride, monocalcium phosphate, glucosamine hydrochloride, DL-methionine, L-carnitine, trace minerals [zinc proteinate, zinc oxide, ferrous sulfate, manganese proteinate, manganous oxide, copper sulfate, calcium iodate, sodium selenite, copper proteinate], GLA safflower oil, marigold extract (*Tagetes erecta* L.), green tea extract, magnesium oxide, chondroitin sulfate, rosemary extract, preserved with mixed tocopherols and citric acid.

BREED Great Dane Adult

For Great Danes over 24 months old

BREED HEALTH NUTRITION®

Available in 30 lb bags

GUARANTEED ANALYSIS

Crude Protein (min)	21.0%
Crude Fat (min)	23.0%
Crude Fiber (max)	4.2%
Moisture (max)	10.0%
Eicosapentaenoic acid (EPA) (min)	0.21%
Docosahexaenoic acid (DHA) (min)	0.09%
Chondroitin sulfate* (min)	11.25 mg/kg
Glucosamine* (min)	888 mg/kg

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 4152 kilocalories of metabolizable energy (ME) per kilogram or 390 kilocalories ME per cup on an as fed basis (calculated).

CONCENTRATED ENERGY

With 80% muscle mass, the energy needs of Great Danes are 50% higher than those of other dogs of the same size. Meanwhile, the short coat provides little insulation against cold. The GREAT DANE ADULT exclusive, high energy formula is tailored to meet their unique nutritional needs without overloading the stomach.

DIGESTIVE PERFORMANCE

A longer colonic transit time as well as a higher colonic permeability in Great Danes leads to more fermentation and the production of poor stool quality. The GREAT DANE ADULT formula supports digestive health while taking into account the Great Dane's digestive sensitivity, with highly digestible L.I.P.* proteins and a selection of specific fibers to help limit intestinal fermentation while promoting a balanced intestinal flora.

*Protein selected for its very high digestibility.

BONE & JOINT HEALTH

With his imposing stature and very long growth period, the Great Dane's joints can be placed under stress. The GREAT DANE ADULT formula helps support healthy bones and joints and helps maintain ideal weight. Enriched with EPA and DHA.

EXCLUSIVE KIBBLE

The kibble shape, size, texture and formula is perfectly designed for the Great Dane's specific needs. The large, textured kibble encourages the breed to chew before swallowing and helps to reduce the rate of food intake.

INGREDIENTS

Chicken fat, chicken by-product meal, tapioca, brewers rice, corn, wheat gluten, natural flavors, powdered cellulose, fish oil, dried plain beet pulp, sodium silico aluminate, grain distillers dried yeast, vegetable oil, potassium chloride, calcium carbonate, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, folic acid, vitamin B12 supplement, vitamin D3 supplement], L-tyrosine, L-lysine, sodium tripolyphosphate, L-arginine, DL-methionine, hydrolyzed yeast, monocalcium phosphate, choline chloride, salt, taurine, glucosamine hydrochloride, magnesium oxide, marigold extract (*Tagetes erecta* L.), L-carnitine, trace minerals [zinc oxide, zinc proteinate, ferrous sulfate, manganous oxide, manganese proteinate, copper sulfate, calcium iodate, sodium selenite, copper proteinate], green tea extract, L-tryptophan, chondroitin sulfate, rosemary extract, preserved with mixed tocopherols and citric acid.

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3733 kilocalories of metabolizable energy (ME) per kilogram or 351 kilocalories ME per cup on an as fed basis (calculated).

MUSCLE & VITALITY COMPLEX

The Jack Russell Terrier is known for his lively temperament. This formula helps maintain muscle mass with optimal protein content and is enriched with a complex of antioxidants to support vitality.

HEALTHY SKIN & COAT

JACK RUSSELL TERRIER ADULT helps support the skin's role as a barrier with an exclusive complex of B vitamins and amino acids and helps maintain skin health with EPA & DHA.

DENTAL HEALTH

Small breed dogs are prone to tartar formation. JACK RUSSELL TERRIER ADULT has an exclusive kibble shape and size to help reduce tartar build-up by encouraging the dog to chew.

EXCLUSIVE KIBBLE

The Jack Russell Terrier has a strong and rectangular jaw, and the breed has large teeth that are set square to the jaws. The size, shape and texture of the kibble is designed to be easy for the adult Jack Russell Terrier to pick up and encourages chewing.

INGREDIENTS

Brewers rice, chicken by-product meal, wheat gluten, wheat, corn, chicken fat, natural flavors, dried plain beet pulp, corn gluten meal, fish oil, grain distillers dried yeast, vegetable oil, sodium silico aluminate, calcium carbonate, potassium chloride, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, folic acid, vitamin B12 supplement, vitamin D3 supplement], salt, fructooligosaccharides, sodium tripolyphosphate, hydrolyzed yeast, choline chloride, L-lysine, DL-methionine, taurine, magnesium oxide, trace minerals [zinc proteinate, zinc oxide, ferrous sulfate, manganese proteinate, manganous oxide, copper sulfate, calcium iodate, sodium selenite, copper proteinate], marigold extract (*Tagetes erecta* L.), glucosamine hydrochloride, L-carnitine, green tea extract, chondroitin sulfate, rosemary extract, preserved with mixed tocopherols and citric acid.

This diet contains 3567 kilocalories of metabolizable energy (ME) per kilogram or 307 kilocalories ME per cup on an as fed basis (calculated).

IMMUNE SYSTEM SUPPORT

As puppies grow, they will experience big changes and new discoveries. During this key period, the puppy's immune system develops gradually. LABRADOR RETRIEVER PUPPY helps support your puppy's natural defenses with an exclusive complex of antioxidants including vitamin E.

HEALTHY GROWTH & WEIGHT

Precise mineral content (calcium and phosphorus) to support the development of strong bones and healthy joints and a balanced energy intake for healthy weight gain in Labrador Retriever puppies.

DIGESTIVE HEALTH

Formulated with high quality protein (L.I.P.*) and prebiotics to support digestive health and a balanced intestinal flora, contributing to optimal stool quality.

*Protein selected for its very high digestibility.

EXCLUSIVE KIBBLE

The Labrador Retriever is a breed that tends to eat quickly without chewing its food. The cylinder shaped kibble of the LABRADOR RETRIEVER PUPPY formula has been designed to slow the rate of ingestion and encourage the Labrador Retriever puppy to chew their food.

INGREDIENTS

Chicken by-product meal, brewers rice, brown rice, corn gluten meal, wheat gluten, corn, chicken fat, natural flavors, dried plain beet pulp, fish oil, pea fiber, sodium silico aluminate, egg product, vegetable oil, monocalcium phosphate, psyllium seed husk, potassium chloride, calcium carbonate, fructooligosaccharides, sodium tripolyphosphate, hydrolyzed yeast (source of betaglucans), vitamins [DL-alpha tocopherol acetate (source of vitamin E), L-ascorbyl-2-polyphosphate (source of vitamin C), biotin, niacin supplement, D-calcium pantothenate, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, vitamin A acetate, thiamine mononitrate (vitamin B1), folic acid, vitamin B12 supplement, vitamin D3 supplement, menadione sodium bisulfite complex], salt, trace minerals [zinc proteinate, ferrous sulfate, manganous oxide, sodium selenite, calcium iodate], choline chloride, glucosamine hydrochloride, taurine, marigold extract (*Tagetes erecta* L.), DL-methionine, L-carnitine, *Yucca schidigera* extract, chondroitin sulfate, carotene, rosemary extract, preserved with mixed tocopherols and citric acid.

Glucosamine* (min)	891 mg/kg
Chondroitin sulfate* (min)	9 mg/kg

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3478 kilocalories of metabolizable energy (ME) per kilogram or 275 kilocalories ME per cup on an as fed basis (calculated).

IDEAL WEIGHT

Their northern ancestors needed plenty of calories before diving into the icy waters of the Atlantic Ocean, and Labrador Retrievers have inherited a legendary appetite from them. As a result, they need a carefully controlled diet to avoid becoming overweight. This exclusive formula helps maintain the adult Labrador Retriever's ideal weight with an appropriate calorie content.

BONE & JOINT HEALTH

As determined athletes, Labrador Retrievers give their all. Their solid body, strong bones and natural predisposition to gain weight are among the factors which can put stress on their joints. The LABRADOR RETRIEVER ADULT formula helps support healthy bones and joints by including glucosamine and chondroitin and helps maintain ideal weight. Enriched with EPA and DHA.

HEALTHY SKIN & COAT

Dense, short hair with a thick undercoat provides Labrador Retrievers with an insulating, water resistant coat. Nutrition plays a vital role in skin and coat maintenance. The LABRADOR RETRIEVER ADULT formula helps support the skin's role as a barrier with an exclusive complex of nutrients and helps maintain skin and coat health (EPA and DHA).

EXCLUSIVE KIBBLE

The Labrador Retriever is a breed that tends to eat quickly without chewing its food. The cylinder shaped kibble of the LABRADOR RETRIEVER ADULT formula helps to slow the rate of ingestion and encourage the Labrador to chew his food.

INGREDIENTS

Chicken by-product meal, brown rice, oat groats, corn gluten meal, brewers rice, natural flavors, chicken fat, pork meal, dried plain beet pulp, powdered cellulose, wheat gluten, fish oil, vegetable oil, sodium silico aluminate, calcium carbonate, potassium chloride, psyllium seed husk, fructooligosaccharides, sodium tripolyphosphate, salt, taurine, vitamins [DL-alpha tocopherol acetate (source of vitamin E), L-ascorbyl-2-polyphosphate (source of vitamin C), biotin, niacin supplement, D-calcium pantothenate, riboflavin supplement, pyridoxine hydrochloride (vitamin B6), vitamin A acetate, thiamine mononitrate (vitamin B1), folic acid, vitamin B12 supplement, vitamin D3 supplement, menadione sodium bisulfite complex], trace minerals [zinc proteinate, ferrous sulfate, manganous oxide, sodium selenite, calcium iodate], glucosamine hydrochloride, choline chloride, GLA safflower oil, marigold extract (*Tagetes erecta* L.), L-carnitine, green tea extract, monocalcium phosphate, chondroitin sulfate, rosemary extract, preserved with mixed tocopherols and citric acid.

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3382 kilocalories of metabolizable energy (ME) per kilogram or 277 kilocalories ME per cup on an as fed basis (calculated).

HEALTHY AGING COMPLEX

LABRADOR RETRIEVER ADULT 5+ is developed to support healthy aging. Contains an exclusive combination of antioxidants to help maintain cellular health and is formulated with an appropriate phosphorus content to help care for the kidney health of Labrador Retrievers as they mature.

IDEAL WEIGHT & MUSCLE MASS SUPPORT

As the Labrador ages, the activity level decreases. This specific formula helps maintain the mature Labrador Retriever's ideal weight with an adapted calorie content. This formula also helps maintain muscle mass with an adapted protein content and L-carnitine.

JOINT FUNCTION SUPPORT

Formulated to provide advanced nutrients, including collagen, EPA & DHA, to help support cartilage during the aging process, helping to maintain healthy bones and joints.

EXCLUSIVE KIBBLE: HIGHLY PALATABLE + REHYDRATABLE

The kibble's size, shape and texture are adapted to the mature Labrador Retriever. The kibble may be softened with warm water which allows for easy eating.

INGREDIENTS

Chicken by-product meal, brown rice, oat groats, brewers rice flour, natural flavors, corn gluten meal, corn, brewers rice, wheat gluten, powdered cellulose, pork meal, dried plain beet pulp, chicken fat, fish oil, vegetable oil, sodium silico aluminate, pork digest, dried tomato pomace, calcium carbonate, salt, powdered psyllium seed husk, potassium chloride, fructooligosaccharides, vitamins[DL-alpha tocopherol acetate (source of vitamin E), biotin, L-ascorbyl-2-polyphosphate (source of vitamin C), niacin supplement, pyridoxine hydrochloride (vitamin B6), D-calcium pantothenate, riboflavin supplement, vitamin A acetate, folic acid, thiamine mononitrate (vitamin B1), vitamin B12 supplement, menadione sodium bisulfite complex, vitamin D3 supplement], trace minerals[zinc proteinate, ferrous sulfate, manganous oxide, sodium selenite, calcium iodate], taurine, choline chloride, green tea extract, marigold extract (*Tagetes erecta* L.), GLA safflower oil, L-carnitine, chondroitin sulfate, carotene, rosemary extract, preserved with mixed tocopherols and citric acid.

Vitamin A (min)	18900 IU/kg
Glucosamine* (min)	371 mg/kg
Chondroitin sulfate* (min)	4 mg/kg

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3474 kilocalories of metabolizable energy (ME) per kilogram or 309 kilocalories ME per cup on an as fed basis (calculated).

HEALTHY SKIN

Skin and coat condition are the reflection of the dog's state of health, and appropriate nutrition plays an important role in their maintenance. MINIATURE SCHNAUZER ADULT helps support the skin's role as a barrier with an exclusive complex of nutrients and helps maintain skin and coat health (EPA, DHA, and vitamin A).

INTENSE COAT COLOR

The Miniature Schnauzer has a very intense coat color, and nutrition can play a vital role in maintaining this intensity. MINIATURE SCHNAUZER ADULT contains tailored levels of specific amino acids to help maintain the coat's natural color.

IDEAL WEIGHT

Excess weight gain can affect the health of the Miniature Schnauzer. An appropriate balanced food is therefore necessary for their health. This formula helps maintain the Miniature Schnauzer's ideal weight.

EXCLUSIVE KIBBLE

The Miniature Schnauzer has a moderately blunt muzzle with teeth that meet in a scissors bite. The kibbles of the MINIATURE SCHNAUZER ADULT formula have been designed to make it easy for this breed to pick up and chew.

INGREDIENTS

Brewers rice, brown rice, oat groats, corn gluten meal, wheat gluten, chicken by-product meal, chicken fat, natural flavors, dried chicory root, salt, fish oil, sodium silico aluminate, calcium sulfate, potassium chloride, calcium carbonate, vegetable oil, psyllium seed husk, potassium citrate, L-lysine, fructooligosaccharides, sodium tripolyphosphate, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, folic acid, vitamin B12 supplement, vitamin D3 supplement], DL-methionine, L-tyrosine, monocalcium phosphate, choline chloride, magnesium oxide, trace minerals [zinc proteinate, zinc oxide, ferrous sulfate, manganese proteinate, manganous oxide, copper sulfate, calcium iodate, sodium selenite, copper proteinate], taurine, glucosamine hydrochloride, GLA safflower oil, marigold extract (*Tagetes erecta* L.), green tea extract, L-carnitine, chondroitin sulfate, rosemary extract, preserved with mixed tocopherols and citric acid.

RECOMMENDED DAILY FEEDING PORTION

18	8	1+3/8	122	1+5/8	141	1+7/8	161

1 cup = 8 fluid ounces = 89 grams

This is only a guide. Optimal feeding amounts may vary according to your dog's temperament, activity level and environment. If you have any questions regarding your pet's health, please contact your veterinarian.

BREED Pomeranian Adult

For Pomeranians over 8 months old

BREED HEALTH NUTRITION®

Available in 2.5 lb and 10 lb bags

BONE & JOINT SUPPORT

Pomeranians can have fragile knee joints. POMERANIAN ADULT contributes to supporting the Pomeranian's healthy bones and joints with adapted mineral content. Enriched with EPA & DHA.

HEALTHY SKIN & COAT

The glorious coat doubled by an abundant undercoat is one of the Pomeranian's extraordinary features. This exclusive formula helps support the skin's role as a barrier, maintains skin health and nourishes the coat. Enriched with adapted content of EPA & DHA.

DIGESTIVE HEALTH

A balanced blend of fibers, including psyllium, helps facilitate intestinal transit, and highly digestible L.I.P.* proteins contribute to optimal stool quality.

*Protein selected for its very high digestibility.

GUARANTEED ANALYSIS

Crude Protein (min)	24.0%
Crude Fat (min)	14.0%
Crude Fiber (max)	3.6%
Moisture (max)	10.0%
Eicosapentaenoic + Docosahexaenoic acid (EPA + DHA) (min)	0.24%
Glucosamine* (min)	525 mg/kg
Chondroitin sulfate* (min)	8 mg/kg

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3667 kilocalories of metabolizable energy (ME) per kilogram or 352 kilocalories ME per cup on an as fed basis (calculated).

EXCLUSIVE KIBBLE: DENTAL HEALTH

The kibble's shape, size, texture and formula are adapted to the Pomeranian's small jaw. This formula helps reduce tartar formation by encouraging the dog to chew.

INGREDIENTS

Brewers rice, corn, chicken by-product meal, chicken fat, oat groats, wheat gluten, corn gluten meal, brown rice, natural flavors, dried chicory root, fish oil, vegetable oil, sodium silico aluminate, calcium carbonate, potassium chloride, powdered psyllium seed husk, fructooligosaccharides, sodium tripolyphosphate, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, vitamin B12 supplement, folic acid, vitamin D3 supplement], DL-methionine, choline chloride, taurine, L-lysine, salt, glucosamine hydrochloride, trace minerals [zinc oxide, zinc proteinate, ferrous sulfate, manganous oxide, manganese proteinate, copper sulfate, sodium selenite, calcium iodate, copper proteinate], marigold extract (*Tagetes erecta* L.), GLA safflower oil, magnesium oxide, green tea extract, L-carnitine, chondroitin sulfate, rosemary extract, preserved with mixed tocopherols and citric acid.

CANINE BREED

BREED Pug Adult

For Pugs over 10 months old

BREED HEALTH NUTRITION®

Available in 10 lb bags

GUARANTEED ANALYSIS

Crude Protein (min)	23.0%
Crude Fat (min)	14.0%
Crude Fiber (max)	3.4%
Moisture (max)	10.0%
Eicosapentaenoic acid (EPA) (min)	0.13%
Docosahexaenoic acid (DHA) (min)	0.05%
L-carnitine* (min)	70 mg/kg
Glucosamine* (min)	371 mg/kg
Chondroitin sulfate* (min)	4 mg/kg

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3751 kilocalories of metabolizable energy (ME) per kilogram or 315 kilocalories ME per cup on an as fed basis (calculated).

HEALTHY SKIN

Nutrition plays an important role in maintaining healthy skin in the Pug. The exclusive formula of PUG ADULT helps support the skin's role as a barrier with an exclusive complex of nutrients and helps maintain skin health (EPA and DHA).

MUSCLE TONE

This formula helps maintain the Pug's muscle tone with an appropriate protein content. Contains L-carnitine.

IDEAL WEIGHT

Excess weight gain can affect the health of the Pug. An appropriately balanced food is therefore necessary for their health. This formula helps maintain the Pug's ideal weight.

EXCLUSIVE KIBBLE: SPECIAL BRACHYCEPHALIC JAW

The Pug has a large round head with a short square muzzle. Their characteristic jaw and very thick lips make it difficult for them to pick up their food. PUG ADULT has cloverleaf shaped kibbles that are designed to make it easy for this breed to pick up and chew.

INGREDIENTS

Brewers rice, brown rice, oat groats, chicken by-product meal, corn, corn gluten meal, chicken fat, wheat gluten, natural flavors, dried plain beet pulp, fish oil, vegetable oil, sodium silico aluminate, calcium carbonate, potassium chloride, L-lysine, fructooligosaccharides, sodium tripolyphosphate, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, folic acid, vitamin B12 supplement, vitamin D3 supplement], DL-methionine, choline chloride, monocalcium phosphate, salt, taurine, trace minerals [zinc proteinate, zinc oxide, ferrous sulfate, manganese proteinate, manganous oxide, copper sulfate, calcium iodate, sodium selenite, copper proteinate], glucosamine hydrochloride, GLA safflower oil, marigold extract (*Tagetes erecta* L.), green tea extract, L-carnitine, magnesium oxide, chondroitin sulfate, rosemary extract, preserved with mixed tocopherols and citric acid.

RECOMMENDED DAILY FEEDING PORTION

BREED Rottweiler Puppy

For Rottweiler puppies up to 18 months old

BREED HEALTH NUTRITION®

Available in 30 lb bags

IMMUNE SYSTEM SUPPORT

As puppies grow, they will experience big changes and new discoveries. During this key period, the puppy's immune system develops gradually. ROTTWEILER PUPPY helps support your puppy's natural defenses with an exclusive complex of antioxidants including vitamin E.

MUSCLE & BONE DEVELOPMENT

The Rottweiler puppy has a long growth period that requires a precise level of energy to maintain a healthy weight. ROTTWEILER PUPPY helps support muscle and bone development with optimal levels of protein, calcium and phosphorus. This formula also contains L-carnitine.

DIGESTIVE HEALTH

Formulated with high quality protein (L.I.P.*) and prebiotics to support digestive health and a balanced intestinal flora, contributing to optimal stool quality.

*Protein selected for its very high digestibility.

GUARANTEED ANALYSIS

Crude Protein (min)	29.0%
Crude Fat (min)	14.0%

BREED Rottweiler Adult

For Rottweilers over 18 months old

BREED HEALTH NUTRITION®

Available in 30 lb bags

GUARANTEED ANALYSIS

Crude Protein (min)	24.0%
Crude Fat (min)	18.0%
Crude Fiber (max)	3.9%
Moisture (max)	10.0%
Eicosapentaenoic acid (EPA) (min)	0.21%
Docosahexaenoic acid (DHA) (min)	0.09%
Taurine* (min)	0.18%
L-carnitine* (min)	581 mg/kg
Glucosamine* (min)	891 mg/kg
Chondroitin sulfate* (min)	9 mg/kg

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3895 kilocalories of metabolizable energy (ME) per kilogram or 366 kilocalories ME per cup on an as fed basis (calculated).

HEALTHY CARDIAC FUNCTION

Rottweiler breed dogs are prone to cardiac sensitivity. The ROTTWEILER ADULT formula contains specific nutrients to help support healthy cardiac function: taurine, EPA and DHA.

IDEAL MUSCLE MASS

Robust, enduring, calm and quiet, but with a strong temperament, the Rottweiler is the king of the guard dogs. Naturally athletic, his strongly muscled silhouette needs a high quality diet. ROTTWEILER ADULT helps maintain muscle mass with tailored levels of protein (24% min) for his specific needs. This formula also contains L-carnitine.

BONE & JOINT HEALTH

Whether working or just on a walk with his owner, the Rottweiler is always active and enthusiastic, and puts his joints under strain. The ROTTWEILER ADULT formula helps support healthy bones and joints and helps maintain ideal weight. Enriched with EPA and DHA.

EXCLUSIVE KIBBLE: SPECIAL MOLOSSOID JAW

The Rottweiler has strong and broad upper and lower jaws with strong teeth meeting in a scissors bite. The kibble shape, size, texture and formula of ROTTWEILER ADULT is perfectly adapted to the Rottweiler and helps limit the food intake rate by encouraging chewing, while the high-energy content covers the requirements of the Rottweiler without overloading his stomach.

INGREDIENTS

Chicken by-product meal, chicken fat, brown rice, corn, brewers rice, wheat gluten, wheat, corn gluten meal, natural flavors, fish oil, dried plain beet pulp, vegetable oil, sodium silico aluminate, powdered cellulose, calcium carbonate, potassium chloride, L-tyrosine, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, folic acid, vitamin B12 supplement, vitamin D3 supplement], sodium tripolyphosphate, potassium citrate, hydrolyzed yeast, choline chloride, taurine, glucosamine hydrochloride, salt, L-carnitine, DL-methionine, trace minerals [zinc proteinate, zinc oxide, manganese proteinate, ferrous sulfate, manganous oxide, copper sulfate, calcium iodate, sodium selenite, copper proteinate], marigold extract (*Tagetes erecta* L.), L-lysine, magnesium oxide, green tea extract, chondroitin sulfate, rosemary extract, preserved with mixed tocopherols and citric acid.

CALORIE CONTENT

This diet contains 3774 kilocalories of metabolizable energy (ME) per kilogram or 336 kilocalories ME per cup on an as fed basis (calculated).

COAT HEALTH

The Yorkshire Terrier's hair is known for its continuous growth and natural softness. This exclusive formula helps maintain the health of the Yorkshire Terrier's long coat. Enriched with omega-3 fatty acids (EPA and DHA), omega-6 fatty acids and biotin.

SATISFIES FUSSY APPETITE

With an extremely fussy appetite, Yorkshire Terriers benefit from a very palatable food. This formula helps satisfy the fussiest of appetites with a combination of exceptional aromas and flavors.

EARLY AGING SUPPORT

The Yorkshire Terrier is known to have a long life expectancy. This formula supplies a selection of targeted nutrients including vitamin C, EPA and DHA to help maintain vitality as the Yorkshire Terrier faces first signs of aging.

EXCLUSIVE KIBBLE: DENTAL HEALTH

The kibble's shape, size, texture and formula are adapted to the Yorkshire Terrier. This formula helps reduce tartar formation by encouraging the dog to chew.

INGREDIENTS

Brewers rice, brown rice, chicken by-product meal, chicken fat, wheat gluten, corn gluten meal, corn, natural flavors, powdered cellulose, dried plain beet pulp, fish oil, vegetable oil, calcium carbonate, potassium chloride, sodium silico aluminate, fructooligosaccharides, sodium tripolyphosphate, vitamins [DL-alpha tocopherol acetate (source of vitamin E), niacin supplement, L-ascorbyl-2-polyphosphate (source of vitamin C), D-calcium pantothenate, biotin, pyridoxine hydrochloride (vitamin B6), riboflavin supplement, thiamine mononitrate (vitamin B1), vitamin A acetate, vitamin B12 supplement, folic acid, vitamin D3 supplement], choline chloride, hydrolyzed yeast, DL-methionine, taurine, salt, L-lysine, trace minerals [zinc proteinate, zinc oxide, manganese proteinate, ferrous sulfate, manganous oxide, copper sulfate, calcium iodate, sodium selenite, copper proteinate], glucosamine hydrochloride, GLA safflower oil, marigold extract (*Tagetes erecta* L.), magnesium oxide, L-tyrosine, green tea extract, L-carnitine, chondroitin sulfate, rosemary extract, preserved with mixed tocopherols and citric acid.

CANINE CARE NUTRITION™

CARE SMALL Dental Care

For small breed dogs over 10 months old prone to dental sensitivity

CANINE CARE NUTRITION™

Available in 17 lb bags

GUARANTEED ANALYSIS

Crude Protein (min)	21.0%
Crude Fat (min)	14.0%
Crude Fiber (max)	4.0%
Moisture (max)	10.0%

CALORIE CONTENT

This diet contains 3688 kilocalories of metabolizable energy (ME) per kilogram or 266 kilocalories ME per cup on an as fed basis (calculated).

PROVEN RESULTS

29% less tartar formation in 28 days*

*Royal Canin internal study, 2018.

Some dogs are more prone to the accumulation of dental tartar. After eating, food residuals form a thin layer of plaque covering the teeth. Over time, plaque calcifies into tartar which accelerates the accumulation of bacteria that can have health consequences.

Complete nutrition that features a kibble formulated with a specialized texture that polishes your dog's teeth as they chew. This, combined with chewing, helps limit plaque and tartar build-up with every meal. Maintaining good oral hygiene is essential for your dog's overall health.

INGREDIENTS

Corn flour, chicken by-product meal, brewers rice, chicken fat, natural flavors, dried plain beet pulp, pea fiber, powdered cellulose, sodium silico aluminate, potassium chloride, calcium carbonate, sodium tripolyphosphate, DL-methionine, choline chloride, vitamins [DL-alpha tocopherol acetate (source of vitamin E), biotin, D-calcium pantothenate, vitamin A acetate, niacin supplement, pyridoxine hydrochloride (vitamin B6), thiamine mononitrate (vitamin B1), vitamin B12 supplement, riboflavin supplement, vitamin D3 supplement, folic acid], trace minerals [zinc proteinate, manganese proteinate, zinc oxide, ferrous sulfate, manganous oxide, copper sulfate, calcium iodate, sodium selenite, copper proteinate], magnesium oxide, rosemary extract, preserved with mixed tocopherols and citric acid.

This diet contains 920 kilocalories of metabolizable energy (ME) per kilogram or 354 kilocalories ME per can on an as fed basis (calculated).

SUPPORTS HEALTHY DIGESTION

Precisely balanced nutritional formula that helps support a balanced intestinal flora and help promote optimal stool quality.

Poor quality stools can be a sign of digestive sensitivity. An easy-to-digest food can support optimal digestive health, which contributes to your dog's overall health and wellbeing.

CANINE CARE NUTRITION PROGRAM

Providing healthy & balanced nutrition across both our dry & wet formulas, enabling you to choose the perfect combination for your dog.

INGREDIENTS

Water sufficient for processing, chicken, pork by-products, chicken by-products, pork liver, chicken liver, wheat flour, powdered cellulose, dried plain beet pulp, carrageenan, carob bean gum, calcium carbonate, sodium silico aluminate, natural flavors, citric acid, potassium chloride, pork plasma, sodium tripolyphosphate, taurine, guar gum, fish oil, vitamins [L-ascorbyl-2-polyphosphate (source of vitamin C), DL-alpha tocopherol acetate (source of vitamin E), thiamine mononitrate (vitamin B1), biotin, niacin supplement, D-calcium pantothenate, riboflavin supplement, pyridoxine hydrochloride (vitamin B6), vitamin B12 supplement, folic acid, vitamin D3 supplement], magnesium oxide, sodium carbonate, marigold extract (*Tagetes erecta* L.), trace minerals [zinc oxide, ferrous sulfate, zinc proteinate, copper sulfate, calcium iodate, manganous oxide, sodium selenite].

CARE | LARGE | Joint Care

For large breed dogs over 15 months old with joint sensitivity

CANINE CARE NUTRITION™

Available in 30 lb bags

GUARANTEED ANALYSIS

Crude Protein (min)	24.0%
Crude Fat (min)	13.0%
Crude Fiber (max)	7.6%
Moisture (max)	10.0%
Chondroitin sulfate* (min)	105 mg/kg

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

CALORIE CONTENT

This diet contains 3526 kilocalories of metabolizable energy (ME) per kilogram or 314 kilocalories ME per cup on an as fed basis (calculated).

PROVEN RESULTS

Supports Healthy Movement – 97% of owners are satisfied after 1 month*

*Royal Canin internal study, 2017.

Large dogs, especially active ones, have added strain on their bones and joints which can slow them down. Help your dog stay active and enjoy better fitness by protecting their bones and joints.

LARGE JOINT CARE is formulated to provide advanced nutrients, including collagen, to support healthy bones and joints during the aging process. The formula also has adapted calories to support a healthy weight.

INGREDIENTS

Corn, chicken by-product meal, wheat, corn gluten meal, chicken fat, powdered cellulose, brewers rice, natural flavors, wheat gluten, dried plain beet pulp, fish oil, vegetable oil, sodium silico aluminate, calcium carbonate, pork digest, salt, potassium chloride, choline chloride, taurine, vitamins [DL-alpha tocopherol acetate (source of vitamin E), L-ascorbyl-2-polyphosphate (source of vitamin C), biotin, D-calcium pantothenate, vitamin A acetate, niacin supplement, pyridoxine hydrochloride (vitamin B6), thiamine mononitrate (vitamin B1), vitamin B12 supplement, riboflavin supplement, vitamin D3 supplement, folic acid], L-lysine, trace minerals [zinc proteinate, zinc oxide, manganese proteinate, ferrous sulfate, manganous oxide, copper sulfate, calcium iodate, sodium selenite, copper proteinate], green tea extract, marigold extract (*Tagetes erecta* L.), L-carnitine, chondroitin sulfate, rosemary extract, preserved with mixed tocopherols and citric acid.

CANINE SUPPLEMENTS

CANINE

SUPPLEMENTS

CANINE SUPPLEMENTS

Health supplement for dogs of all ages and sizes

DEVELOPED BY VETERINARIANS

Available in 7-count boxes and 30-count boxes of 1-gram packets

PROMOTES A STRONG IMMUNE SYSTEM

BOOSTS BENEFICIAL BACTERIA IN THE GUT

SUPPORTS DIGESTIVE HEALTH AND OPTIMAL STOOL QUALITY

INGREDIENTS

Active Ingredients per Packet (1 g): *Saccharomyces boulardii* CNCM 1-1079: 1.13x10⁹ CFU.
Inactive Ingredients: Maltodextrins.

DIRECTIONS FOR USE

Administer one packet daily or as directed by your veterinarian.

Cautions: If animal's condition worsens or does not improve, stop product administration, and consult a veterinarian. For use in dogs only. Recommended to proactively support your pet's digestive health and overall wellbeing by promoting a healthy gut microbiome.
Warnings: Not for human consumption. Keep out of the reach of children and animals. In case of accidental overdose, contact a health professional immediately.

Health supplement for puppies of all sizes over 6 months old

DEVELOPED BY VETERINARIANS

SUPPORTS A PUPPY'S DEVELOPING DIGESTIVE AND IMMUNE SYSTEM

- ✓ Prebiotic fibers (FOS & MOS) feed the good bacteria in the gut microbiome.
- ✓ Beta-glucan postbiotics for digestive health and to support good stool quality.
- ✓ Vitamins E and C help support cellular health.

Available in 60-count, 5.2 oz pouches

INGREDIENTS

Active Ingredients per Soft Chew (2.5 g): MOS (yeast extract): 190 mg, Beta-1, 3 Glucans (yeast extract): 70 mg, Zeolite (sodium aluminosilicate): 26 mg, FOS (fructooligosaccharides): 5 mg, Vitamin E (DL-alpha tocopherol acetate): 1 mg, Vitamin C (L-ascorbyl-2-polyphosphate): 1 mg. **Inactive ingredients:** Acacia gum, corn starch, dried chicken, glycerin, lecithin, millet flour, natural flavors, naturally preserved with citric acid and mixed tocopherols, rosemary extract, sodium acid pyrophosphate, vegetable oil, vinegar, water, wheat flour.
